

ACTION ALERT! Defeat the Panama FTA

STOP NAFTA expansion-it's time for a new way

Three free trade agreements that were **negotiated by Bush** linger over Congress and threaten the fresh start for fair trade that so many Americans voted for.

The most pressing today is the **Panama Free Trade Agreement**, a NAFTA look-a-like deal that would continue to outsource jobs, undermine workers rights, and threaten the environment if passed.

Panama is a **tax haven**, where companies "set up shop" to avoid paying taxes. Why reward companies that send jobs over seas and hide from much needed financial regulation?

Many Panamanians are small farmers. The agricultural provisions in NAFTA forced millions of small Mexican farmers off their land because they could not compete with subsidized corn from the U.S. If this FTA passes, more **small farmers in Panama** will struggle to provide for their families and could be forced to leave their home and immigrate north to find work.

ACT NOW!

CALL OR EMAIL Senator Snowe **TODAY** and ask her to **OPPOSE THE PANAMA FTA** and support instead a new direction for fair trade that will help Mainers keep their jobs.
